Trial Eligibility and ORTs

Basic Description of the Test
To successfully pass an ORT a dog must identify the location of the target odor, and the handler must correctly call an "alert" within a **two minute 30 second (2:30)** time period. The Odor Recognition Test consists of a drill type exercise which requires 12 closed boxes typically set up in a pattern of two rows, spaced a **minimum of 36" apart.** The ORT is conducted on leash. Complete information can be obtained on the NACSW website. Handlers may test on all 3 odors at the same event.

All exhibitors should obtain and review a copy of the ***NACSW K9 NOSE WORK® RULE BOOK.*** You may get it from their website: www.NACSW.net

No dog will be given more than one space in the same odor test at a single event.

LOCATION DETAILS

ADA Site Specific Conditions
This event location is a dog training facility. The parking lot, pathways and search areas are on one level. There is a curb in front of the building with a ramp option at the sidewalk ends. Parking in front of the building may be available as needed. Conditions may be icy or snowy and participants should be prepared to navigate such conditions.
Due to unforeseen conditions, such as weather or change in availability of areas at the location, these conditions may be modified at the last minute.

Modeled after real-life detection work, NACSW events are held in many different locations, with a variety of terrain, under varying weather conditions. Dogs and handlers need to be able to safely negotiate a variety of surfaces, including, but not limited to, tile, linoleum, carpeting, gravel, asphalt, uneven surfaces, and slippery footing. Handlers should be prepared to deal with a variety of weather conditions, including heat, cold, rain and snow. Events frequently require covering extensive distances to get to and from the parking area to each of the search areas and generally require that this be done across natural, uneven surfaces. Handlers should be prepared for physical demands and must be able to navigate the terrain with their dog accordingly. Handlers should expect to spend most of the day outside or in their vehicles as there are rarely indoor crating options at events. Please be prepared for you and your canine partner to deal with all of these varying environmental challenges. Handlers should familiarize themselves with potential regional risks and health concerns that may affect themselves or their dogs. Handlers agree that they are entering this event at their own risk.

Due to unforeseen conditions, such as weather or change in availability of areas at the location, the details below may need to be modified at the last minute.

Parking
The main competitor parking lot is gravel small with little extra space between vehicles.

RV Parking
The parking lot is small and can't handle vehicles that take up more than one standard parking space. There is some street parking available for a very limited number of RVs. Please contact the Barb Sahl at the.elemental.dog@gmail.com before bringing an RV to ensure that there is sufficient space.

Running Vehicles or Generators in the parking lot
Running your vehicles or generators in the parking lot is allowed at this event as long as you have permission from your neighbors or are willing to park away from others.

Reactive Dog Parking
There will be reactive dog parking at this event for those who wish to park in this area, however the parking is tight and there will not be separate potty areas or warm up boxes. Space for reactive parking may be limited. Please inform the host contact if you need to avail yourself of this option.

Unentered Dogs
Unentered dogs must remain in the handler's vehicle during the event day. There will be ample potty areas, but unentered dogs should not be allowed to "play", exercise, or train on the event grounds. If possible, volunteers' dogs should be left at home, however, limited indoor crating will be available volunteers' dogs. Please contact Barb Sahl at the.elemental.dog@gmail.com to confirm availability of sufficient space.

Facility/Site Prohibitive Restrictions (e.g., smoking, firearms, alcohol, drugs, video)
Alcohol, smoking (including vaping) and fire arms are not allowed on this event site

DOG INFORMATION

Dog Policies

- All dogs must always be on a 6' leash when not searching. NO flexi-leashes while not participating in a search.
- Reactive and/or spatially challenged dogs should wear a red bandana (to be provided by the dog's handler) to help signal others that the dog needs extra space from other dogs.
- Dogs will be toileted in designated areas and handlers must pick up and dispose of waste.
- Dogs and handlers must stay in designated areas to avoid contaminating search space, interrupting a search, or from viewing any part of the search.
- Handlers should expect to keep their dogs confined in a crate or vehicle when not searching. The logistics of an event typically do not allow for dogs to hang out on leash in between searches. Handlers should plan to provide their own shade using canopies or shade cloths.
- Refer to location details (above) for information on unentered dogs.

Females in Season

Females in season are allowed to participate in ORTs. If there is a bitch in season participating in the ORT, she must wear panties and will run at the end of each odor. If the ORT is split into AM and PM sessions, in-season females will run at the end of each odor in the afternoon session only.

Handlers with females in season should park and toilet their dogs away from the other dogs if the location logistics permit. Handlers must email the Barb Sahl, the.elemental.dog@gmail.com so plans can be made for the dog.
